

LSC TRANSPORTATION CONSULTANTS, INC.

Resume

KRISTINA SVENSK

Education

Bachelor of Science, Environmental Horticulture – Cal Poly, San Luis Obispo
Master of Urban Planning – San Jose State University

Professional Membership

American Planning Association

Experience

Kristina Svensk joined LSC Transportation Consultants, Inc. as a Transportation Planner in the Tahoe City, California office. Ms. Svensk is presently preparing a Transit Development Plan for the City of Aspen, Colorado and has completed plans for Western Nevada County and Amador County in California. She also assisted with a transit center study in Grass Valley, California that included evaluation of existing planning/zoning requirements, assessment of transit operational requirements, and gathering public and key person input. Ms. Svensk also contributed to the preparation of the transportation background reports for the Tahoe City Community Plan EIR/EIS (South Lake Tahoe, California) and the City of South Lake Tahoe General Plan, assisted with traffic impact studies for development projects and has conducted data collection and analysis tasks for transit systems.

As a Planner with a public jurisdiction, Ms. Svensk researched and evaluated large-scale development projects and prepared environmental review documents. As an Environmental Assistant with Caltrans, Ms. Svensk participated in the California Highway Management Plan for Highway 1 in Big Sur and produced the first draft for public review of the vegetation management guidelines. She researched habitat restoration techniques and principles, and evaluated the appropriate and most feasible methods for the region based on traffic safety, planned highway improvements, and the natural constraints of the area.

Ms. Svensk has strong research and technical writing skills and is experienced in presenting projects at public hearings and community meetings.
